EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald E. Smith on March 24, 2004.

The application has been amended as follows:

In claim 1, between lines 12 and 13, the following have been inserted --- said longitudinally extending slot that divides said ankle part being separate from said at least one longitudinally extending slot that divides said anterior section of said sole;---

In claim 10, between lines 4 and 5, the following have been inserted --- at least one longitudinally extending slot formed in said anterior section of said sole;---

In claim 10, between lines 9 and 10, the following have been inserted --- said longitudinally extending slot that divides said ankle part being separate from said longitudinally extending slot formed in said anterior section of said sole;---

In claim 11, line 1 substitute number " 9" by number ---10--- and the following line has been canceled (line 2) " at least one longitudinally extending slot formed in said anterior section of said sole; " .

The following is an examiner's statement of reasons for allowance: After careful consideration of the Applicant's remarks the Examiner has found the independent claims are allowable. There is no evidence in the prior art of a dynamic prosthetic foot comprising an ankle part, a longitudinal extending slot that divides the ankle into a lateral pylon and a medial pylon;

at least one longitudinal extending slot dividing the posterior section of the sole into at least two sections so that said at least two sections respond independently to uneven terrain; and said longitudinally extending slot that divides said ankle part being separate from the at least one longitudinally extending slot that divides said anterior section of the sole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
